

Comprehensive Social and Family Counseling and Veterans Readjustment Services Now Available through GSA

GSA stands ready to help our nation's returning Warfighters with a full range of Social and Family Services, including highly specialized behavioral and mental health counseling and veterans readjustment services.

With record numbers of U.S. troops continuing to demobilize and return home from Iraq and Afghanistan, the future demand for specialized behavioral and mental health readjustment services for our nation's Warfighters is expected to increase substantially.

To meet the unique needs of these returning Warfighters and their families, GSA has expanded its portfolio of offerings under its Human Resources and EEO Schedule (738X), Special Item Number (SIN) 595.28, Social Services, Professional Counseling and Veterans' Readjustment & Behavioral Health Services.

These new offerings cover the full range of family and patient-centered behavioral health and readjustment

counseling services for depression, substance abuse disorders, suicide prevention, Post Traumatic Stress Disorder (PTSD), Traumatic Brain Injury (TBI) and vocational and psychosocial rehabilitation. Telehealth, homeless counseling and placement services are also available.

These new services were added in response to requests from behavioral health professionals who see the future demand for services they provide greatly expanding as more and more Warfighters return home.

Under GSA MAS 738X, agencies can issue task orders for these specialized services from FAR-compliant vendors who are qualified to provide credentialed support to clinicians, licensed social workers, psychiatrists, mental health counselors, psychologists and other behavioral health specialists.

Services may be all inclusive, separate, short and/or long term, bundled or unbundled.

Agencies and military commands have an extensive suite of services at their disposal, including:

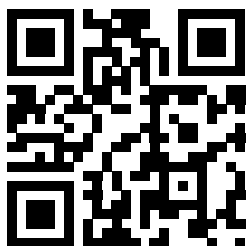

- Employee Assistance Programs
- Physical and Occupational Therapy
- Post-Traumatic Stress Disorder (PTSD), Traumatic Brain Injury (TBI) and Polytrauma Counseling
- Suicide Prevention (Including Hotline Support)
- Child, Youth and Family Support Services
- Emergency Response and Relief Services
- Religious and Human Rights Counseling
- Legal Aid Services
- Stress Management Counseling
- Health & Wellness Training & Coaching
- Psychosocial Rehabilitation
- Physical/Occupational/Educational Therapy and Outpatient Recovery
- Personal and Family Support
- Psychotherapy
- Homeless Counseling and Placement Services

- Emergency Response and Social Advocacy Services
- Educational and Public Health Program Administration
- Benefit/Compensation Consultation (in the areas of Individual and Family Personal, and Financial Enhancement)
- Telemental Health Counseling Services (which augments treatment and improves patient access using Telehealth channels)
- Substance Abuse Disorder (SUD) Services
- Depression Counseling
- Military Sexual Trauma (MST) Counseling

Contact Information
